**Notes to the Condensed Consolidated Financial Statements**  
**(Unaudited)**

**Note 1 — Basis of Presentation**

**Presentation**

The Condensed Consolidated Financial Statements include the accounts of Cambium Learning® Group, Inc. and its subsidiaries (the "Company") and are unaudited. The condensed consolidated balance sheet as of December 31, 2017 has been derived from audited financial statements. All intercompany transactions have been eliminated.

As permitted under the Securities and Exchange Commission ("SEC") requirements for interim reporting, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") have been omitted. The Company believes that these financial statements include all necessary and recurring adjustments for the fair presentation of the interim period results. These financial statements should be read in conjunction with the Consolidated Financial Statements and related notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Due to seasonality, the results of operations for the three and nine months ended September 30, 2018 are not necessarily indicative of the results to be expected for any future interim period or for the year ending December 31, 2018.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Subsequent actual results may differ from those estimates.

As of January 1, 2018, the Company adopted Accounting Standards Update No. 2017-07, *Compensation-Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, and accordingly presented the other components of net benefit costs separately from the service cost component and outside of operating profit, presented as "Other income (expense)" in the consolidated statement of operations. Prior period non-service components of pension and post-retirement costs of \$0.1 million and \$0.3 million for the three and nine months ended September 30, 2017, respectively, were recast from "General and administration expense" to "Other income (expense)" on the Company's condensed consolidated statements of operations.

**Nature of Operations**

The Company is an award-winning educational technology solutions leader dedicated to helping all students reach their full potential through individualized and differentiated instruction. Using a research-based, personalized approach, Cambium Learning Group delivers software as a service (SaaS) resources and instructional products that engage students and support teachers in fun, positive, safe and scalable environments. These solutions are provided through Learning A-Z® (online differentiated instruction for elementary school reading, writing and science), ExploreLearning® (online interactive math and science simulations and a math fact fluency solution), and Voyager Sopris Learning® (blended solutions that accelerate struggling learners to achieve in literacy and math and professional development for teachers). Cambium Learning Group believes that every student has unlimited potential, that teachers matter, and that data, instruction, and practice are the keys to success in the classroom and beyond.

The Company has three reportable segments with separate management teams and infrastructures that offer various products and services. See Note 15 – *Segment Reporting* for further information on the Company's segment reporting structure.

**Note 2 — Accounts Receivable**

Accounts receivable are stated net of allowances for doubtful accounts and estimated sales returns. The allowance for doubtful accounts and estimated sales returns totaled \$0.2 million and \$0.1 million at September 30, 2018 and December 31, 2017, respectively. The allowance for doubtful accounts is based on a review of outstanding balances and historical collection experience. The reserve for sales returns is based on historical rates of return as well as other factors that in the Company's judgment, could reasonably be expected to cause sales returns to differ from historical experience.

**Note 3 — Stock-Based Compensation and Expense**

***Cambium Learning Group, Inc. 2009 Equity Incentive Plan***

In 2009, the Company adopted the Cambium Learning Group, Inc. 2009 Equity Incentive Plan ("Incentive Plan"). Under the Incentive Plan, 5,000,000 shares of common stock were reserved for issuance of awards which may be granted in the form of incentive stock options, non-statutory stock options, stock appreciation rights, restricted stock, restricted stock units,

conversion stock options, conversion stock appreciation rights, and other stock or cash awards. The Incentive Plan is administered by the board of directors which has the authority to establish the terms and conditions of awards granted under the Incentive Plan.

#### Stock-Based Compensation and Expense

The following table presents stock-based compensation expense resulting from stock options that are recorded in the condensed consolidated statements of operations and comprehensive income for the periods presented:

<i>(in thousands)</i>	Three Months Ended September 30,		Nine Months Ended September 30,

General and administrative expense	118	114	341	339
Total	\$ 249	\$ 217	\$ 728	\$ 641

#### 2018 Grants

In the first quarter 2018, the Company granted 250,000 options under the Incentive Plan with an exercise price of \$9.16. The options vest in equal monthly installments on the last day of the month over a four-year period, with an initial vesting date of March 31, 2018. As of September 30, 2018, the Company had 2,084,621 stock options outstanding.

#### Note 4 — Net Income per Common Share

Basic net income per common share is computed by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing net income by the weighted-average number of common shares outstanding during the period, including potential dilutive shares of common stock assuming the dilutive effect of outstanding stock options and restricted stock awards using the treasury stock method. Weighted-average shares from common share equivalents in the amount of 249,755 and 185,815 for the three and nine months ended September 30, 2018, and 692,509 and 629,989 for the three and nine months ended September 30, 2017, respectively, were excluded from the dilutive shares outstanding because their effect was anti-dilutive.

The following table presents the calculation of basic and diluted net income per share:

## Note 5 — Revenue Recognition

On January 1, 2018, the Company adopted the new revenue guidance *Revenue from Contracts with Customers* ("ASC 606") and applied it to all contracts using the modified retrospective method. The Company recognized the cumulative effect of initially applying ASC 606 as an adjustment to the opening balance of retained earnings. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods. The Company expects the impact of the adoption of ASC 606 to continue to be immaterial to net income on an ongoing basis.

The cumulative effect of the changes made to the consolidated January 1, 2018 balance sheet for the adoption of the new revenue standard was as follows:

<i>(in thousands)</i>	<u>As Reported December 31, 2017</u>	<u>Adjustments due to ASC 606</u>	<u>As Adjusted January 1, 2018</u>
Accounts receivable	\$ 12,937	\$ (69)	\$ 12,868
Inventory	2,382	10	2,392
Other current assets	11,193	(554)	10,639

Accumulated deficit	(288,490)	(751)	(289,241)

### *Learning A-Z and Explore Learning Segments*

The Learning A-Z and Explore Learning segments derive revenue from sales of online subscriptions to their literacy, math and science websites and related training and professional development. The subscription service represents two performance obligations: the obligation to provide access to the on-line educational content and functionality, and the stand-ready obligation to provide post-sale customer support. The stand-ready obligation may include customer support, online or on-site trainings, rostering or single sign-on support, or other technology or curriculum related inquiries. Typically, the subscriptions are for a twelve month period (although they can be for longer periods) and the revenue for both performance obligations is recognized ratably over the period the online access is available to the customer.

### *Voyager Sopris Learning Segment*

Revenues for the Voyager Sopris Learning segment are derived from sales of literacy and math educational solutions and services to school districts. Sales include printed materials, subscription interactive web-based programs and online educational content, training and implementation services, and professional development. Revenue from the sale of printed materials is recognized when the product is received by the customer, as the Company typically has control of the shipping arrangements. Revenue for interactive web-based programs and online educational content, which may be sold separately or included with printed curriculum materials, is recognized ratably over the subscription or contractual period, typically a school year. The Company allocates a portion of the online subscription and printed material revenue to a stand-ready performance obligation which may include customer support, online or on-site trainings, rostering or single sign-on support or other technology or curriculum related inquiries. The stand-ready performance obligation is recognized ratably over the period the online access is available or the expected usage term of the printed material, typically over the school year.

Contracts to provide professional services such as training, implementation, and professional development are considered a single performance obligation and the related revenues are recognized as delivered.

For all reportable segments, the Company may enter into agreements to license or sell certain publishing rights and content. The Company recognizes the revenue from these agreements when either the license period, if applicable, has commenced or the transfer of content, if applicable, has occurred.

### *Costs to Acquire Contracts*

Under the new revenue recognition standard, incremental costs incurred to obtain a contract, as well as costs to fulfill a contract, must be deferred and amortized over the expected period that the related performance obligation is satisfied. The Company has historically deferred costs incurred to obtain and fulfill contracts with a customer, including commissions paid to the Company's inside and field salesforce. The Company has elected to apply this standard to all contracts and did not elect the practical expedient to expense contract acquisition costs as incurred for contracts less than one year. The cumulative effect adjustment to "Other current assets" reflects the change to deferred costs commensurate with the related change in the deferred revenue balance.

The following table presents the Company's disaggregated revenue by segment and geography. See Note 15 – *Segment Reporting* for more information on the Company's reportable segments.

**Note 6 — Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability (exit price), in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques are based on observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 — Quoted prices for identical instruments in active markets.
- Level 2 — Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant value drivers are observable.
- Level 3 — Valuations derived from valuation techniques in which significant value drivers are unobservable.

Applicable guidance requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

At September 30, 2018, financial instruments include \$26.3 million of cash and cash equivalents, restricted assets of \$1.6 million, collateral investments of \$1.1 million, and Senior Secured Credit Facility term loans, net of discount and deferred financing costs, of \$43.6 million. At December 31, 2017, financial instruments include \$8.5 million of cash and cash

equivalents, restricted assets of \$2.3 million, collateral investments of \$1.1 million, and Senior Secured Credit Facility term loans, net of discount and deferred financing costs, of \$47.8 million. The fair market values of cash equivalents, restricted assets, and collateral investments are equal to their carrying value, as these investments are recorded based on quoted market prices and/or other market data for the same or comparable instruments and transactions as of the end of the applicable reporting period. See Note 14 – *Debt* for additional information regarding the Company's term loans and Revolving Credit Facility.

At September 30, 2018 and December 31, 2017, the carrying value of the Company's Senior Secured Credit Facility term loans and Revolving Credit Facility borrowings approximates the fair value, as the borrowings are tied to the London Interbank Offered Rate ("LIBOR") and are market sensitive.

Assets and liabilities measured at fair value on a recurring basis are as follows:

### Note 12 — Uncertain Tax Positions and Income Taxes

The Company recognizes the financial statement impact of a tax return position when it is more likely than not, based on technical merits, that the position will ultimately be sustained. For tax positions that meet this recognition threshold, the Company applies judgment, taking into account applicable tax laws, experience managing tax audits, and relevant GAAP, to determine the amount of tax benefits to recognize in its financial statements. For each position, the difference between the benefit realized on the Company's tax return and the benefit reflected in its financial statements is recorded to Other Liabilities in the Condensed Consolidated Balance Sheets as an unrecognized tax benefit ("UTB"). The Company updates its UTBs at each financial statement date to reflect the impacts of audit settlements and other resolution of audit issues, expiration of statutes of limitation, developments in tax law, and ongoing discussions with tax authorities.

The balance of UTBs was \$2.6 million at September 30, 2018 and December 31, 2017. Included in the balance of unrecognized tax benefits at September 30, 2018 are approximately \$0.5 million of tax benefits that, if recognized, would affect the effective tax rate. The recognition of the remaining uncertain tax positions would not affect the effective tax rate, but would instead increase or would have increased available tax attributes. However, the recognition of the tax attribute would be offset by an increase in the deferred tax asset valuation allowance resulting in no net impact to the effective tax rate.

The Company recognizes interest accrued related to its UTBs and penalties as income tax expense. Related to the UTBs noted above, the Company recognized no penalties (gross) and an immaterial amount of interest during the nine months ended September 30, 2018. At September 30, 2018 and December 31, 2017, the Company had liabilities of \$0.1 million for penalties (gross) and \$0.1 million for interest (gross).

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. All U.S. tax years prior to 2008 related to the Voyager Learning Company acquired entities have been audited by the Internal Revenue Service. Cambium and its subsidiaries have been examined by the Internal Revenue Service through the end of 2006. The Company has been audited by the various state tax authorities through 2007.

### Note 13 — Commitments and Contingencies

#### Legal Proceedings

The Company is involved in various legal proceedings incidental to its business. Management believes that the outcome of these proceedings will not have a material adverse effect upon the Company's consolidated operations or financial condition and the Company has recognized appropriate liabilities as necessary based on facts and circumstances known to management. The Company expenses legal costs related to legal contingencies as incurred.

#### Letters of Credit

The Company had letters of credit outstanding at September 30, 2018 in the amount of \$0.4 million to support workers' compensation activity. The Company maintains certificates of deposit of \$0.2 million as collateral for the letters of credit. The Company also maintains a \$0.9 million money market fund investment as collateral for a travel card program. The certificates of deposit and money market fund investment are included in Collateral Investments in Note 8 – *Other Assets*.

### Note 14 — Debt

<i>(in thousands)</i>	September 30, 2018	December 31, 2017

Long-term debt	\$ 36,781	\$ 41,841

The Company had no outstanding borrowings under the Revolving Credit Facility at September 30, 2018 and December 31, 2017.

#### Senior Secured Credit Facility

On December 10, 2015, Cambium Learning, Inc. (the "Borrower"), a wholly-owned subsidiary of Cambium Learning Group, Inc., entered into a \$135.0 million Senior Secured Credit Agreement (the "Credit Agreement") among the Borrower, the Company, Webster Bank, N.A., as Administrative Agent, L/C Issuer and a Lender, and the other Lenders party thereto, with Webster Bank, N.A., as Joint Lead Arranger, the Governor and Company of the Bank of Ireland, as Joint Lead Arranger and Syndication Agent, and Capital One National Association, and Babson Capital Finance, LLC, as Co-Documentation Agents (the "Senior Secured Credit Facility"). The Senior Secured Credit Facility consists of a term loan A which had an initial principal amount of \$70.0 million ("Term Loan A"), a term loan B which had an initial principal amount of \$35.0 million ("Term Loan B") and a \$30.0 million revolving credit facility (the "Revolving Credit Facility"), secured by a lien on substantially all assets and capital stock of the Company, the Borrower and the Borrower's subsidiaries (collectively, the "Loan Parties"). The Senior Secured Credit Facility matures on December 10, 2020. In 2017, the Company repaid the remaining principal amount outstanding of the Term Loan B.

Borrowings under the Senior Secured Credit Facility bear interest equal to either a Base Rate, as defined in the Credit Agreement, or LIBOR (subject to a 1.0% floor), at the Borrower's option, plus an applicable margin. The applicable margin for the Term Loan A and Revolving Credit Facility ranges between 2.75% and 3.50% for Base Rate loans and 3.75% and 4.50% for LIBOR loans. The applicable margin for the Term Loan A and Revolving Credit Facility is based on a leverage calculation. As of September 30, 2018, the lowest tier of the applicable margins were in effect, and the interest rate for the Term Loan A was 6.08%. Additionally, unused borrowing capacity under the Revolving Credit Facility is subject to a commitment fee of 0.5%. Interest is payable in arrears every three months or less, based on the selected LIBOR interest period.

The Credit Agreement contains affirmative, negative and financial covenants customary for financings of this type, including, among other things, limits on the creation of liens, limits on the incurrence of indebtedness, restrictions on investments and dispositions, limitations on fundamental changes to the Loan Parties, a maximum consolidated net leverage ratio, and minimum fixed charge coverage ratio. Upon an event of default, and after any applicable cure period, the Administrative Agent can accelerate the maturity of the loan. Events of default include customary items, such as failure to pay principal and interest in a timely manner and breach of covenants. At September 30, 2018, the Company was in compliance with all covenants related to the Senior Secured Credit Facility.

The principal balances of the Senior Secured Credit Facility were issued at a discount, representing fees paid to lenders, which are amortized over the life of the debt using the effective interest rate method. Unamortized discount at September 30, 2018 and December 31, 2017 was \$0.2 million and \$0.4 million, respectively.

The Company incurred debt issuance costs associated with the Senior Secured Credit Facility, which were deferred and are amortized over the term of the related debt using the effective interest method. Unamortized deferred financing costs related to the Term Loan A totaled \$0.2 million at September 30, 2018 and \$0.3 million at December 31, 2017, and are presented as a reduction to Long-term Debt in the Condensed Consolidated Balance Sheets. Unamortized deferred financing costs related to the Revolving Credit Facility totaled \$0.4 million at September 30, 2018 and \$0.5 million at December 31, 2017, and are classified as Other Assets in the Condensed Consolidated Balance Sheets.

At September 30, 2018, the Company had outstanding principal balances of \$44.0 million under Term Loan A, no outstanding borrowings under the Revolving Credit Facility, and had \$29.8 million borrowing availability under the Revolving Credit Facility. During 2017, the Company voluntarily prepaid the remaining principal amount outstanding on the Term Loan B of the Senior Secured Credit Facility.

In February 2016, the Company paid \$0.1 million to enter into interest rate cap agreements for approximately half of its outstanding Term Loan A and Term Loan B loans, less required amortization, for a three-year period. Under the interest rate cap agreements, the Company will receive payments for any period that the three-month LIBOR rate exceeds 2.5%.

Amortization expense in cost of revenues includes amortization for acquired pre-publication costs and technology, acquired publishing rights, and developed pre-publication and technology product development. Amortization expense was \$4.2 million in the third quarter of 2018, a decrease of \$0.5 million compared to the same period of 2017, due to lower capex in 2018 compared to the prior year.

The decrease is due to decreases at Voyager Sopris Learning, including cost savings from the restructuring activities in late 2017, which were partially offset by planned investments to support growth initiatives at Learning A-Z and ExploreLearning.

#### ***General and administrative expense***

General and administrative expenses in the third quarter of 2018 were \$6.0 million, an increase of \$0.5 million, or 9.3%, from the third quarter of 2017. Shipping and handling costs for the nine months ended September 30, 2018 decreased slightly to \$0.6 million, from \$0.7 million in the same period of 2017, commensurate with lower print revenues.

#### ***Depreciation and amortization expense***

Depreciation and amortization expense was \$2.2 million for the nine months ended September 30, 2018, an increase of \$0.1 million compared to the first nine months of 2017.

#### ***Other income (expense)***

Other income (expense) was \$(0.1) million and \$(0.3) million for the nine months ended September 30, 2018 and September 30, 2017, respectively, and includes expense related to a frozen defined benefit pension plan of \$(0.3) million in both periods. Pension expense in the first nine months of 2018 was partially offset by income resulting from the sale of excess state tax research and development credits of \$0.2 million.

#### ***Net interest expense***

Net interest expense decreased by \$1.2 million, or 30.8%, to \$2.7 million in the first nine months of 2018 compared to the same period in 2017 as a result of the scheduled debt amortization payments and voluntary prepayments made during 2017.

#### ***Income tax expense***

We recorded an income tax expense of \$4.0 million for the nine months ended September 30, 2018. In December 2017, we released most of the valuation allowance against our deferred tax assets. The release of the valuation allowance results in changes in our deferred taxes being included in income tax expense as opposed to prior year periods in which changes in our deferred taxes were offset by corresponding changes in the valuation allowance.

## Liquidity and Capital Resources

Our primary sources of liquidity are cash balances, cash flow from operations, and the Revolving Credit Facility that we entered into in December 2015. Sales seasonality attributable to the buying cycle of school districts, which generally starts at the beginning of each new school year in the fall, affects our operating cash flow. As a result of this inherent seasonality, we normally incur a net cash deficit from all of our activities in the first and second quarters of the year and we normally generate cash in the third and fourth quarters of the year. We expect borrowings under the Revolving Credit Facility to vary according to this seasonality, and accounts receivable balances are normally at their highest at the end of the third quarter. At September 30, 2018, our cash balances were \$26.3 million, our net accounts receivable were \$26.3 million, we had no outstanding borrowings under the Revolving Credit Facility, and we had \$29.8 million of availability under the Revolving Credit Facility.

Based on current and anticipated levels of operating performance and cash flow from operations, combined with our existing cash balances and availability under the Revolving Credit Facility, we believe that we will be able to make required principal and interest payments on our debt and fund our working capital, operational and capital expenditure requirements for the next 12 months.

### Senior Secured Credit Facility

On December 10, 2015, we entered into a \$135.0 million Senior Secured Credit Agreement (the "Credit Agreement") which provided for a term loan A which had an initial principal amount of \$70.0 million ("Term Loan A"), a term loan B which had an initial principal amount of \$35.0 million ("Term Loan B"), and a \$30.0 million revolving credit facility (the "Revolving Credit Facility") (together, the "Senior Secured Credit Facility"), secured by a lien on substantially all of our assets. The Senior Secured Credit Facility matures on December 10, 2020. In 2017, we repaid the entire principal amount outstanding of the Term Loan B.

Borrowings under the Senior Secured Credit Facility bear interest equal to either a Base Rate, as defined in the Credit Agreement, or LIBOR (subject to a 1.0% floor), at our option, plus an applicable margin. The applicable margin for the Term Loan A and Revolving Credit Facility ranges between 2.75% and 3.50% for Base Rate loans and 3.75% and 4.50% for LIBOR loans. The applicable margin for the Term Loan A and Revolving Credit Facility is based on a leverage calculation. As of September 30, 2018, we qualified for the lowest applicable margin, and the interest rate for the Term Loan A was 6.08%. Additionally, unused borrowing capacity under the Revolving Credit Facility is subject to a commitment fee of 0.5%. Interest is payable in arrears every three months or less, based on the selected LIBOR interest period.

The Credit Agreement contains affirmative, negative and financial covenants customary for financings of this type, including, among other things, limits on the creation of liens, limits on the incurrence of indebtedness, restrictions on investments and dispositions, and limitations on fundamental changes. A maximum consolidated net leverage ratio and minimum fixed charge coverage ratio were effective beginning in the first quarter of 2016. Upon an event of default, and after any applicable cure period, the Administrative Agent could elect to accelerate the maturity of the loan. Events of default include customary items, such as failure to pay principal and interest in a timely manner and breach of covenants. At September 30, 2018, the Company was in compliance with all covenants related to the Senior Secured Credit Facility.

### Summary of Cash flows

Cash provided by (used in) our operating, investing and financing activities is summarized below:

<i>(in thousands)</i>	Nine Months Ended September 30,	
	2018	2017
Operating activities	\$ 33,242	\$ 25,570
Investing activities	(12,056)	(13,912)
Financing activities	(3,424)	(4,495)

*Operating activities.* Cash provided by operating activities was \$33.2 million and \$25.6 million for the nine months ended September 30, 2018 and 2017, respectively. Cash flows from operating activities were impacted favorably during 2018 due to improved operational results and \$0.9 million of lower cash interest payments, partially offset by an increase in cash taxes of \$0.7 million, and the return of \$0.7 million of cash from a certificate of deposit collateralizing a letter of credit in the first nine months of 2017.

*Investing activities.* Cash used in investing activities was related to capital expenditures, and was \$12.1 million for the nine months ended September 30, 2018 compared to \$13.9 million during the same period of 2017, declining by \$1.9 million as a result of lower spend at the Voyager Sopris Learning segment. Capital expenditures in 2018 for the ExploreLearning segment include \$0.9 million related to the ongoing integration of content from IS3D, LLC, which was acquired in the fourth quarter of 2017.

*Financing activities.* Cash used in financing activities was \$3.4 million for the nine months ended September 30, 2018 compared to \$4.5 million for the nine months ended September 30, 2017. Cash outflows for the nine months ended September 30, 2018 included scheduled principal payments on the Senior Secured Credit Facility of \$4.5 million. Cash inflows for the nine months ended September 30, 2018 included \$1.1 million of proceeds from the exercise of stock options. Financing outflows for the nine months ended September 30, 2017 included scheduled principal payments of the Senior Secured Credit Facility of \$5.3 million. Cash inflows for the nine months ended September 30, 2017 included \$0.8 million of proceeds from the exercise of stock options. Borrowings and repayments under the Revolving Credit Facility netted to zero during the nine months ended September 30, 2018 and September 30, 2017.

#### Non-GAAP Measures

The Company uses the EBITDA, Adjusted EBITDA, and Cash Income non-GAAP financial measures to monitor and evaluate the operating performance of the Company and as a basis to set and measure progress towards performance targets.

- *EBITDA* is earnings from operations before interest, income taxes, and depreciation and amortization.
- *Adjusted EBITDA* is EBITDA excluding non-operational and non-cash items. Examples of items excluded from Adjusted EBITDA include stock-based compensation, merger, acquisition and disposition activities, certain impairment charges, and restructuring charges.
- *Cash Income* reduces Adjusted EBITDA for capital expenditures and removes the timing differences for recognition of deferred revenues and related deferred costs.

EBITDA, Adjusted EBITDA, and Cash Income are not prepared in accordance with GAAP and may be different from similarly named, non-GAAP financial measures used by other companies. Non-GAAP financial measures should not be considered a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. The Company believes these non-GAAP measures provide useful information to investors because they reflect the underlying performance of the ongoing operations of the Company and provide investors with a view of the Company's operations from management's perspective. Adjusted EBITDA and Cash Income remove significant restructuring, non-operational, or certain non-cash items from earnings. The Company uses Adjusted EBITDA and Cash Income to monitor and evaluate the operating performance of the Company and as the basis to set and measure progress toward performance targets. Further, the Cash Income measure directly affects compensation for employees and executives. The Company generally uses these non-GAAP measures as measures of operating performance and not as measures of the Company's liquidity. The Company's presentation of EBITDA, Adjusted EBITDA, and Cash Income should not be construed as an indication that our future results will be unaffected by unusual, non-operational, or non-cash items.

#### Reconciliations of Operational and Non-GAAP Measures

Bookings is an internal, operational metric that measures the total dollar value of customer orders in a period, regardless of the timing of the related revenue recognition. We consider Bookings a leading indicator of revenues. Below are reconciliations of Bookings to Net Revenues and of Net Income to EBITDA, Adjusted EBITDA, and Cash Income for the three and nine months ended September 30, 2018 and 2017:

**Footnotes**

- (a) In the reconciliations of Bookings to Net Revenues, Other comprises timing differences between the invoicing of a transaction, which generates Bookings, and its recognition as either net revenues or deferred revenues. The most common reasons for these timing differences include product that is shipped from our warehouse and invoiced but not recognized as revenues until physical delivery, adjustments to the allowance for estimated sales returns, and revenue under contract that is earned and recognized in one period but invoiced in a subsequent period.
- (b) In the second quarter of 2018, we recorded other income resulting from the sale of excess state research and development tax credits.
- (c) Restructuring costs are related to severance charges in the Company's Voyager Sopris Learning segment in the third quarter of 2017, as part of efforts to reduce the cost structure of this segment. In the three and nine months ended September 30, 2017, restructuring costs were \$0.3 million and were recorded in general and administrative expense.
- (d) Costs are related to merger and acquisition activities including due diligence and other non-operational charges such as pension. The three and nine months ended September 30, 2018 include \$1.0 million and \$2.1 million of expenses incurred, respectively, related to the agreement to acquire VKidz and the review of strategic alternatives and the subsequent Merger Agreement.
- (e) Stock-based compensation and expense is related to our outstanding options.

**Off-Balance Sheet Arrangements**

The Company had no off-balance sheet arrangements as of September 30, 2018 that have or are reasonably likely to have a current or future material effect on the Company's financial condition, changes in financial condition, revenues, sales or expenses, results of operations, liquidity, capital expenditures or capital resources.

**Contractual Obligations**

This item is not required for a smaller reporting company.

### **Critical Accounting Policies**

In the ordinary course of business, we make a number of estimates and assumptions relating to the reporting of results of operations and financial condition in the preparation of our condensed consolidated financial statements in conformity with GAAP. Actual results could differ significantly from those estimates under different assumptions and conditions. We included in our Form 10-K for the year ended December 31, 2017 a discussion of our critical accounting policies that are particularly important to the portrayal of our financial condition and results of operations and that require the use of our management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

We have made no material changes to any of the critical accounting policies discussed in our 2017 Form 10-K through September 30, 2018 other than the adoption of the provisions of *Revenue from Contracts with Customers (Topic 606)* ("ASC 606"). Refer to Note 5 – *Revenue Recognition* for a description of the impact of the adoption on the Company's financial statements and accounting policies.

### **Recently Issued Financial Accounting Standards**

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-02, *Leases* (ASU 2016-02). The guidance in ASU 2016-02 requires entities to record the assets and liabilities created by leases greater than one year. This ASU is effective for interim periods and fiscal years beginning after December 15, 2018, and early adoption is permitted. In July 2018, the FASB issued ASU No. 2018-11, *Leases Topic (842): Targeted Improvements*. This ASU provides companies an option to apply the transition provisions of the new lease standard at its adoption date instead of at the earliest comparative period presented in its financial statements. The Company is currently evaluating the impact of adopting this guidance.

In March 2017, the FASB issued ASU No. 2017-04, *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*. The guidance simplifies the accounting for goodwill impairment by eliminating the requirement to calculate the implied fair value of goodwill as the second step of the goodwill impairment evaluation. Companies are instead required to recognize goodwill impairment based on the excess of the reporting unit's carrying value compared to its fair value. This ASU is effective in 2020 for calendar year entities, and early adoption is permitted. The Company is currently evaluating the impact of adopting this guidance.

### **Recently Adopted Financial Accounting Standards**

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes nearly all existing revenue recognition guidance under GAAP. The core principle of ASC 606 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. The new revenue guidance defines a five-step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than are required under existing GAAP. The guidance requires improved disclosures to help users of the financial statements better understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. The Company adopted this guidance using the modified retrospective approach on January 1, 2018. See Note 5 – *Revenue Recognition* for additional information regarding the Company's adoption of the new revenue guidance.

In March 2017, the FASB issued ASU No. 2017-07, *Compensation-Retirement Benefits (Topic 715), Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*. The standard requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside of a subtotal of income from operations (included in "Other income (expense)" in the consolidated Statement of Operations). The Company retrospectively adopted this standard as of January 1, 2018, and all applicable amounts included in this filing have been recast accordingly. The Company used the practical expedient that permits an employer to use the amounts disclosed in its pension and other postretirement benefit plan note for the prior comparative periods as the estimation basis for applying the retrospective presentation requirements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

This item is not required for a smaller reporting company.

#### **Item 4. Controls and Procedures.**

##### **Evaluation of Disclosure Controls and Procedures**

Management of the Company, with the participation of the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) pursuant to Rule 13a-15 of the Exchange Act as of the end of the period covered by this report. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported on a timely basis and that such information is communicated to management, including the Chief Executive Officer, Chief Financial Officer and its Board of Directors to allow timely decisions regarding required disclosure.

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2018.

##### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### **Part II. Other Information**

##### **Item 1. Legal Proceedings.**

The Company is involved in various legal proceedings incidental to its business. Management believes that the outcome of these proceedings will not have a material adverse effect upon the Company's consolidated operations or financial condition and the Company has recognized appropriate liabilities as necessary based on facts and circumstances known to management.

##### **Item 1A. Risk Factors.**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors," in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, as such factors could materially affect the Company's business, financial condition, or future results. In the three months ended September 30, 2018, there were no material changes to the risk factors disclosed in the Company's 2017 Annual Report on Form 10-K. The risks described in the Annual Report on Form 10-K are not the only risks the Company faces. Additional risks and uncertainties not currently known to the Company, or that the Company currently deems to be immaterial, also may have a material adverse impact on the Company's business, financial condition, or results of operations.
